Contemporary wallpaper

PRELOVED

In fashion we currently see an eclectic look where different designs are combined in a tasteful way; pattern upon pattern upon pattern. The love for nature is still of great influence.

The feature design of this collection is a hand-painted passion flower, honouring the old masters. By implementing different color schemes, we have given it a modern look. The Passiflora steals the show with its delicate flowers and exotic looking leaves. If you like an eclectic look, choose a colorful mix.

By finding the right balance between old and new, you create your own personal style. Combine the wallpaper with your beloved cabinet, that funky lamp, beautiful memorabilia and a lush plant for exactly that unique interior that radiates who you are or what you need.
